SAVOUR the LINE OF A CHARMED LIFESTYLE.

EXPERIENCE the **LINE** OF CONNECTIVITY.

Drive down modern expressways such as the Kallang Paya Lebar Expressway, East Coast Parkway and Nicoll Highway that will transport you around the island in minutes. Hop onto the train at nearby MRT station and you will reach your destination in cool comfort. Whether you drive or use Singapore's excellent public transport, The Line to ultimate convenience is ever closer.

Distinction between work and play diminish gradually as day blends into night and the exquisite East becomes your playground. Embark on a journey within your vicinity and discover a brand new facet of dining and entertainment. Indulge in world-class shopping at modern malls, feast on scrumptious seafood at well-known East Coast eateries or spice up your leisure moments at internationally-renowned locations like Marina Bay Entertainment Centre – all just minutes away from your astounding abode.

Life at The Line provides abundant opportunities to achieve the lifestyle you desire. Relieve your stress and relax with a round of golf at the Marina Bay Golf Course or spend quality time with family and friends at the adjacent East Coast beach. With an array of activities available, The Line is the perfect reflection of the rich tapestry of experiences.

# EXPERIENCE the LINE OF DISTINCTION.

The Architect begins with the "Line"

The medium for an architect begins with an imagination that evolves into an expression of form and character. Ever since the beginning, Architects have used lines to articulate a multitude of representations and metaphor within their very own preconceived thoughts. The characteristics of a line can be easily found anywhere, in a drawing, a picture, a painting, a storybook, and a chair, a table, in a living room, a kitchen, a bedroom, an office or even in our very own imaginative mind. The artistic creativity of the Line @ Tanjong Rhu was powerfully inspired by the natural influence around - the composition of contextual lines across the sky, the green, the sea and the connectivity linearity to the city. This unprecedented transformation created by the Architect allows the building to sit strategically on the ground line where it belongs.

Sky Line

Sea Line

Green Line  
Connecting  
Line

The Line – a prestigious new residential development that leads you to luxury living. With close proximity to the East Coast Park seafront, this high rise paradise offers quiet seclusion nestled in lush tropical greenery with convenient links to Singapore's bustling city centre.

# AMENITIES PLAN

## 1st Storey

BE WOWED BY the LINE.

---

Achieve the perfect line of balance between work and play with beautiful landscaping that evoke visions of paradise. Enjoy the soothing ripples of water at a multitude of unique water features and waterscapes positioned around the development.

At The Line, clean, crisp lines induce visions of zen living where elements conspire to provide one with tranquility and serenity.

Mingle with family and friends at the terrace deck and tantalise your taste buds with a delectable line of BBQ food. Relax and ease a busy day's work with a leisure dip in the jacuzzi.

Exquisite facilities allow you to de-stress and invigorate yourself. At The Line, you will find only the best.

EXPERIENCE the LINE OF INDULGENCE.

- Multi-storey Carpark, carpark ramps and driveways: Reinforced concrete floor with hardener

NOTE: Some carpark lots and driveways are open to sky

### 16. RECREATION FACILITIES

- Floating Clubhouse
- Water Terrace Sky Gymnasium
- Floating Outdoor Gym
- Sky Terrace Infinity Lap Pool (estimated surface area : 170 sq m)
- Sky Terrace Sun Deck
- Garden Spa Pool
- Water Garden Children's Pool
- Reflective Lily Pond at Central Garden
- Forest Jacuzzi
- Sunken Garden Bar
- Forest Garden BBQ Terrace
- Waterfall Lounge
- Garden Spa/ Golden Lounge
- Meditation Deck/ White Lounge
- Fragrant Garden Pavilion
- Fragrant Garden Deck
- Fragrant Garden Lawn
- Fragrant Garden Palm Court/ Outdoor Function Space
- Children's Playground
- Changing Rooms

### 17. ADDITIONAL ITEMS

- Kitchen Cabinets  
Kitchen cabinets with solid surface worktop or stone countertop and stainless steel sink and mixer
- Vanity Cabinets  
Vanity Cabinets with solid surface worktop or stone countertop for each bathroom (except for Maid's toilet at Unit Type SA)
- Kitchen Appliances
  - Cooker hob, cooker hood and built-in oven
  - Washing Machine/Dryer
- Wardrobes  
1 Built-in wardrobe for each bedroom
- Air-Conditioning System
  - The air-conditioning system consists of wall mounted fan coil units (FCU) and condensing units (CU).
  - Refer to Air-Conditioner Schedule for details.
- Water Heater  
Hot water supply to Bathrooms and Kitchen / Kitchenette
- Security System
  - Auto Car Barrier(s)
  - CCTV at designated Common Areas
  - Access Control System at designated Common Areas
- Jacuzzi for Unit Type C-b on 19th storey only.
- Private Lap Pool for Unit Type SA (estimated surface area : 10 sq m)
- Private Lap Pool for Unit Types PH1, PH2, and PH3 & PH4 (estimated surface area : 24 sq m)

- Marble/Compressed Marble/Limestone/Granite/stone finishes in general  
Marble/compressed marble/limestone/granite/stone finishes in general are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/compressed marble/limestone/granite/other stone finishes as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to clause 14.3, the tonality and pattern of the marble, compressed marble, limestone, granite or stone finishes selected and installed shall be subject to availability.
- Timber  
Timber is a natural materials containing grains/veins and tonal differences. Thus, it is not possible to achieve total consistency of colour and grain in their selection and installation. Timber is also subject to thermal expansion and contraction beyond the control of builder and Vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as required. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.
- Air-conditioning system  
To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his/her own contractor to service the air-conditioning system regularly.
- Television, Cable Television and/or Internet Access  
The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television, cable television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.
- Materials, Fittings, Equipment, Finishes, Installations and Appliances  
Subject to clause 14.3, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to Architect's selection and market availability.
- Layout/Location of Wardrobes, Cabinets, Fan Coil Units, Electrical Points, TV Outlets, Data Outlets, Telephone Outlets, Door Chime Point, Intercom, FM Point, Door Swing Positions and Plaster Ceiling Boards  
Layout/Location of wardrobes, kitchen cabinets, fan coil units, electrical points, TV outlets, data outlets, telephone outlets, door chime point, intercom, FM point, door swing positions and plaster ceiling boards are subject to Architect's final decision and design.
- Warranties  
Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser. Notwithstanding this assignment, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.
- Web Portal of the Housing Project  
The Purchaser will have to pay annual fee, subscription fee or any such fee to the service provider of the Web Portal of the Housing Project as may be appointed by the Vendor or the Management Corporation when it is formed.
- False Ceiling  
The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.
- Glass  
Glass is manufactured material that is not 100% pure nor is it 100% free from impurities. It is difficult to detect such impurities. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. In addition, glass may break / shatter due to accidental knocks or other causes. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.
- Planters  
Planters are designed to take the loading of potted plants only. No soil material or turf/plants will be provided in the planters.
- Wall  
All wall finishes shall be terminated at false ceiling level. There will be no tiles/ stone works behind kitchen cabinets/ vanity cabinet/mirror.
- Tiles  
Selected tile sizes and tile surface flatness cannot be perfect, and are subject to acceptable range described in Singapore Standards SS 483: 2000.
